Announcement – New President

Dr. Scott Howitt

president@rccsc.ca

The Royal College of Chiropractic Sports Sciences (Canada) (RCCSS(C)) would like to announce and welcome Dr. Scott Howitt as our newly elected President. Dr. Howitt has held numerous positions on the board of the RCCSS(C) over the last 12 years and is excited to transition into the leadership position of President.

Obtaining his Fellowship in 2004, Dr. Howitt is currently an active fellow in private practice at the Pure Fitness Move Lab in Toronto and an Associate Professor at CMCC, for which he is the Supervising Clinician at Sunnybrook St. John's Rehab. Other endeavours include a sessional lecturer for the University of Guelph in Human Health and Nutritional Sciences, the varsity chiropractor for York University and a member of the PEAK science sports medicine team for Canada Soccer. Dr. Howitt is also an active conference presenter in sports medicine, rehabilitation, nutrition and fitness and a researcher in concussion, manual therapy, rehabilitation and exercise. He is also the chiropractic representative to National Advisory Council of EIMC and is on the editorial board of the JCCA.

During the transition of the Presidency, I will continue to provide support and mentorship to ensure a seamless transition. I would also like to thank our committee chairs, committee members and liaisons who collectively volunteer thousands of hours each year towards the RCCSS(C). And, of course, my thanks go out to the RCCSS(C) Membership and stakeholders for their continued collaboration and support of the RCCSS(C).

Please join our board in welcoming Dr. Scott Howitt into the role of President.

Feel free to contact me for personal or Board matters as I will continue to support the vision of our board from my Past President position.
